PROJECTS

Apple Vision-Pro Clone **Source Code**

- Skills Used: HTML, CSS, JavaScript,JS Libraries (GSAP, Locomotive).
- Integrated Locomotive Scroll for smooth scrolling behavior and synchronized it with GSAP's ScrollTrigger plugin for seamless animation transitions.
- Used Canvas, event handling, DOM manipulation, asynchronous operations, and animation timelines.

Password Generator **Source Code**

- Skills Used: HTML, CSS, JavaScript.
- This project integrates password generation with DOM manipulation, event handling, and HTML attribute storage, enhancing user experience through clipboard interaction, interval-based animation, and iteration control.

Real-Time Countdown **Source Code**

- Skills Used: HTML5, CSS, JavaScript.
- First project after learning how javascript actually works which includes DOM Manipulation.

CERTIFICATIONS

- The Complete 2024 Web Development Bootcamp - Dr. Angela Yu
